

Suchitwa Mission
Local Self Government Department
Government of Kerala

No. 1899/G/2021/SM

Dated: 20.08.2022

From

Executive Director

To

1) Director,
Local Self Government (Urban) Department.

2) Director,
Local Self Government (Rural) Department.

Sir,

Sub:- LSGD - Suchitwa Mission - Authorized credential list of DRDO Biodigester
technology in south zone - For information - Reg.

Ref:- Letter No. WM1/41/2021-LSGD dated 11/08/2022

DRDO has perfected an eco-friendly biodegradation technology for human waste disposal for armed forces deployed at high altitude locations and glaciers. Hundreds of such biodigesters have been installed at various locations in J&K, Sikkim and Arunachal Pradesh. Subsequently, the technology has been extended to Indian Railways for on-board treatment of human waste. Further, low-cost single house biodigesters have been designed for rural sectors of the country which are long-lasting, require little space, generate environment-friendly safe effluent and do not require any maintenance. Biodigester technology is environmentally friendly, maintenance free and efficient without depending on conventional energy sources. DRDO has developed different versions of bio-digester to suit different conditions

It may please be noted that only a select group of licensees authorized for the supply of bacteria and the supply and construction of the biodigester receive the technology from DRDO. However, it is noted that several agencies, claiming to be authorized agents for DRDO are approaching the LSGs for supply/erection of biodigester. Hence it is requested that the credentials of the agency may please be verified at the website <http://drdoficciatac.com/>. The licensee list for South zone is attached herewith for reference

Yours faithfully

K T Balabhaskaran *

Executive Director
